Extra Curricular

I helped a small team organise our London graduation show held at Foto8 Gallery, this included a week of events one such event was a panel discussion: 'Emerging photographers in emerging markets'.

I also took on the responsibility for putting together our graduate show in Falmouth. This involving organising a team to prepare and paint boards. Then putting the exhibitions space together ready for hanging.

During my time at university I was a founding member of the 'Team Zissou' society. Largely a bit of fun the society was based on the film 'The Life Aquatic with Steve Zissou'. We ran film screenings on the beach, hired boats and met up for barbeques.

In my younger years I was a member of the Cubs & Scouts. This has provided me with many practical skills & the ability to efficiently solve problems. I can put up a tent I've never seen before tent, light a fire & have a cup of tea brewing in minutes!

Other achievements include obtaining a level 2 certificate in Kayaking, completing the Bronze Duke of Edinburgh's award as well as completing a ST Johns ambulance first aid course.
