1 person has recommended JC

"It was a creative & exciting process to collaborate with JC. As a person he is quite easy to work with, he understands my brand's vision. We went back and forth on the concept of the shoot, a few times. He was very patient and after a few meetings & discussions, we nailed the idea. Once the concept was in place, he gave his best to achieve what we had aimed for. JC is a perfectionist and has a good eye to detail. Even, after the photo shoot the editing was done as how I had requested. He put in a lot of time & energy for my project and had executed it as close as I had envisioned."

— **Aksha Fernandez**, was JC's client
