## About Me

I'm an award winning photographer who recently graduated with a 1st Class degree in Commercial Photography in 2015. Since then I have spent time at TaylorJames, Bradwell Media Centre and Photolink working under numerous photographers such as Bryn Griffiths collaborating on major campaigns across the country. This has gained me experience in Fashion, Beauty and Interiors along with my specialism, Still Life.

In addition to this, I have an extensive digital knowledge and Post Production skills, which have been featured in work from international photographers such as Stefan Bourson and campaigns for Argos and Homebase among others. These have been featured on billboards and in printed publications such as the Time Newspaper.
