I have completed an undergraduate photography course with a result equivalent to 2:1 and have developed my photographic practice with experience in commercial and art related projects.

Based in Edinburgh, Scotland I am available to work as a freelance photographer or photographer's assistant. I specialize in landscape, architecture, location and portrait photography.

I am experienced in:

- Working with wide range of digital and analogue photo cameras.
- Working with different types of lighting and studio equipment.
- Traditional photographic processes and darkroom.
- Digital laboratory: working with film scanners, photographic printers and relevant software.
- Retouching and working with post-production software (Adobe Photoshop and Lightroom).
- Preparing prints for display: printing, mounting, installing exhibition.
